------------------	-------------------------	---	-----------------------------

Profile Summary

- Frontend Developer with 2.4 + years of experience specializing in JavaScript, React, and SCSS.
- Skilled in building responsive user interfaces, implementing state management with React Query and Redux, Redux Toolkit, and ensuring code quality and security through tools like Sonar Lint, SonarQube.
- Experienced in **CI/CD pipelines**, **REST API** integrations, and **security analysis**.
- Strong background in **JavaScript**, **React**, **Git**, and **performance optimization**. Passionate about solving complex technical challenges and delivering enterprise-grade solutions.

Experience

NetEnrich Technologies Pvt. Ltd. - Software Engineer

Dec 2022 – Present | Hyderabad, India

- Contributed to the end-to-end development of scalable frontend features in a **product-based environment**, enhancing core user journeys such as **account setup**, **subscription flows**, **team management**, and **personalized branding directly improving user experience** and platform efficiency.
- Delivered robust scalable **AI-driven chat using WebSockets and REST APIs**.
- Engineered modules for **AI agent creation**, **agent interaction previews**, **response history tracking**, **detailed agent activity logs**, **metrics visualization**, **summary generation**, and **key creation**, **Tools Creation**.
- Spearheaded **version upgrades for both React and Ant Design**, enabling access to modern features, improved performance, and long-term maintainability.
- Worked on **Dark/Light mode functionality**, ensuring seamless theme switching across all core modules.
- **Integrated Storybook** library to maintain and document globally reusable UI components.
- **Collaborated closely with cross-functional teams** — including **Backend**, **DevOps**, and **UX** — to ensure seamless integration, optimized deployment, and consistent user experience across React components and platform features.
- **Merged two repositories** as part of bringing Smart UI, **migrating from Tailwind CSS to SCSS** and rewriting React Flow components to enhance the user interface and improve development workflow.
- **Redesigned the entire folder structure** of the frontend repository to improve scalability, readability, and modularity across components and features.

Projects

- IMDb Clone : Movie listing app using React, TMDB API & React Router. Integrated watchlist with Local Storage.
- To-Do App : Created a minimal task manager using React and CSS with dynamic state handling.
- FastAPI APIs : Developed REST APIs in **Python** using **FastAPI** services with async routes and JSON handling.

Technical Skills

Programming Languages : JavaScript, TypeScript, HTML5, CSS3, SCSS/SASS,

Platforms : Git & GitHub, VS Code, Postman, SonarLint, SonaeQube, Webpack, Parcel.

API & Web Technologies : REST APIs, WebSockets,

Libraries & Frameworks : React.js, Redux, React Query, React Router, React DOM , Axios ,Ant Design , Story Book , Bootstrap , Redux/Toolkit,

Performance & Optimization : Performance Auditing, Code Splitting, Lazy Loading, Image Optimization

Design & Accessibility : Responsive Web Design, Accessibility (ARIA, WCAG), Dark Mode/Light Mode implementation

Education

- **Bachelor of Engineering (B.E.)** in Mechanical - Mumbai University, Maharashtra | 2021
- **Post Graduate Diploma in Advanced Computing** - Center for Development of Advanced Computing, Hyderabad | 2022
